Our company, acting with high environmental awareness; has adopted occupational health and safety as a priority criterion.

With this understanding, we are working to raise awareness and train our farmers correctly and make them feel as part of our production and the expectations of our valued customers. We also cooperate with about 600 women farmers in our facility to participate in the production processes of women farmers.

In the near future, hoping to be your company's potential supplier, please do not hesitate to contact us for possible business partnerships.

Thank you in advance for your interest.

Best regards,

Mr.Adem Rondu

About Laurel Leaves:

The most unique variety Laurel Leaves in the world is Turkish laurel leaves . where the laurel leaves most widely grown around the world is Turkey.

Especially in the Marmara Region, the laurel leaves located around Bursa-Yalova has a unique aroma and color. Laurel leaves is 25-100 mm long oval.

The %85 of the world production of Laurel leaves are met from Turkey.

For centuries because of its antimicrobial properties against various diseases these products laurel leaves are used, in itself as a "healing and healthy " curing.

Laurel leaves has both healthy and vitamin storage properties. Marmara laurel leaves has a softer, pleasant taste and is widely used in cooking as a spice. Surrounded by forests, Marmara and its surroundings have 17,000 hectares of laurel leaves bay area. Dried Marmara-Bursa laurel leaves has stronger natural aroma in itself.

Our facility is located in the middle of very large laurel leaves bay areas and is the largest and the only modern facility in its region.
